**Huntington Manor
Fire Department
Recognition:**

Dr. Bennardo shared with the audience that the District enjoys a healthy relationship with the Huntington Manor Fire Department. In addition to protecting the community from fire hazards, the Fire Department spends considerable time participating in community activities that enhance our South Huntington learning family. Dr. Bennardo proudly introduced Chief McQuade, who stepped to the podium. Dr. Bennardo presented Chief McQuade with a two-foot by two-foot beautifully framed photograph of a firefighting squad in full gear poised in front of the Walt Whitman High School's Homecoming Bonfire. The photograph captured the brilliant colors of the booming bonfire, as well as the warm, smiling expressions on each firefighter's face. Chief McQuade provided his gratitude for such a unique expression of appreciation and thanked the Board of Education for such a heartfelt gesture.

**All-State Swimmer
Recognition:**

Dr. Bennardo introduced Dr. Jim Wright, who announced Emily Fung's achievement of All-State Swimmer in the backstroke. Dr. Wright continued and stated that the program had an outstanding fall season, and he thanked Coach Shepard for his efforts in coaching Emily and the team. Dr. Wright shared the intense dedication Emily has to the sport and the fact that she was only a junior receiving such high distinction. Dr. Wright presented Emily with a Certificate of Achievement.

**Wildcat Marching
Band New York
State
Championship Title
Recognition:**

Dr. Bennardo proudly announced that the Wildcat Marching Band had the exceptional distinction of back-to-back New York State Championship Titles—last year and this current year. Dr. Bennardo introduced Principal Murphy and Coach Caitlin Coumatos to present each marching band member with a Certificate of Achievement, as well as a Proclamation from the Board of Education commemorating this honor.

**Virtual Enterprise
Presentation:**

Dr. Matthew Murphy thanked the Board of Education and Cabinet for the opportunity to present the Virtual Enterprise course currently taught at the high school. Dr. Murphy shared that the students created a virtual company—OnTheGo Technologies---and run it from the ground up. The company had a CEO, and Human Resources, Marketing, Accounting, IT and Administration officers. Chris Adams, a student and Administration Officer of OnTheGo Technologies, had presented at a recent virtual enterprise conference and competed against 80 other finalists, coming in third place.

Mr. Murphy introduced Ms. Sandra Stueber, the business teacher for the Virtual Enterprise course, who thanked the Board and shared her enthusiasm for the course and the students she worked with. Ms. Stueber communicated that the Human Resources Manual was written by the students (a copy was provided to each Board and Cabinet member). She commented that these students now possess an understanding of corporate human resources, and thus have an edge over other students, as well as the opportunity to learn through creating a business. Ms. Stueber stated that what made the course so successful was the support that the students provided to each other. Additionally, Ms. Stueber spoke of Angel Investors, whereby Board members can provide their intent to virtually invest in OnTheGo Technologies, and additional information pertaining to this concept will be shared with the Board at a later time. Ms. Stueber also presented Chris Adams with a plaque for his success with the competition in which he secured third place in front of an audience of five-thousand. Chris shared with the Board the content of his sales pitch on cell-phone battery life that he had provided at the virtual conference.

**Voice of the
Resident:**

Mr. Kaden suggested that the Voice of the Resident be addressed at this point of the meeting so that the children in the audience could leave after they have had the opportunity to speak and not have to stay until the end of the meeting. There was complete consensus with Mr. Kaden's offer.

Students from each school came forward to address the Board of Education with regard to the request to have the two major Muslim holidays—Eid al Fitr and Eid al Adha—placed on the school calendar as official holidays with

November 30, 2016

schools closed. The students spoke of the difficulties of being in school on their high holidays. Despite religious observances being an approved reason for absence from school, the students articulated distress of having to miss important instruction, an exam, or a field trip, and, therefore, many times went to school during their high holidays. Each student asked the Board to consider their request. Residents also spoke in support of the Eid holiday proposal. Mrs. Zakia Laraki orchestrated the effort to support school closure for the Muslim holidays, and addressed the Board after the students spoke. Mrs. Laraki thanked the Board for the opportunity to speak, and outlined what was provided in the packet that each Board and Cabinet member received. The contents were:

- The initial petition presented on Facebook and other electronic media in an effort to gain and gauge support of the community;
- The report and study that were conducted and presented by Hesham El-Meligy and Engr. Khalid Shaukat from the Coalition of Muslim School Holidays to the New York City Public School System.

Mrs. Laraki spoke to the significance of each holiday and how Muslim families worshiped on these days. She, too, shared her feeling that it was a discredit to call in absences for her children on these holy days, and how unfavorable it was for Muslim students to miss lessons, classroom work, specials and sporting events. Mrs. Laraki communicated that the Eid holidays were recently added to the New York City school calendar, as well as the Syosset School District, and humbly asked for our Board's consideration of same.

Mr. Kaden thanked Mrs. Laraki and the students for their extremely thorough and well-articulated presentation. He respectfully shared that adding two additional holidays to the school calendar required the make-up of the days elsewhere. Mr. Kaden spoke of the 1999 February recess break removal from the calendar, and the negative uproar from the community insisting for its return the following year. Additionally, Mr. Kaden shared with the Muslim community members that the District follows the BOCES calendar for specific reasons, as the District has students who attend BOCES schools, thus the need for consistency between the two calendars. Mr. Kaden addressed the fact that the Muslim holidays are positioned differently on the calendar each year, and the scheduling difficulties with that fact must be heavily considered. In the 2017/18 school year, the holiday falls on June 15th, when Regents examinations will be administered. The movement of the holidays certainly makes it problematic to consider. Mr. Kaden concluded his comments and thanked Mrs. Laraki and speakers for the presentation.

Mr. Nitkewicz provided his thoughts regarding the information that was provided. He communicated that our South Huntington community was diverse, and that diversity was richly celebrated. Mr. Nitkewicz shared that he has bragged many times that "South Huntington does diversity really well." He also commented that he had researched this topic prior to the meeting, and the Board would need to discuss the subject further amongst themselves. He

November 30, 2016

would like to know how many Muslim students were impacted before providing a definitive response. In closing, Mr. Nitkewicz articulated his appreciation for such a well-presented proposal.

Mr. Ciappetta remarked that the students who spoke were tremendous and he was very impressed with their speeches. He, too, valued the diversity within the District. Mr. Ciappetta communicated that he works in New York City, and recalled when the New York City Board of Education closed for the Muslim holidays, it did have a negative impact with childcare with his co-workers. In addition, if consideration were to be provided for Muslim holidays, would consideration also be provided to other religions for their holiday celebrations? Mr. Ciappetta shared the proposal will be carefully reviewed, and again thanked Mrs. Laraki for presenting the proposal.

Mr. Kaden added that religious observance was an excusable absence; the State permits it.

Mrs. Brieff echoed what had been articulated by her fellow trustees. She provided her respect and appreciation for the well-presented proposal and the eloquent manner in which information was shared.

**Discussion on
Honors and
Advanced
Placement
Weighting:**

Dr. Bennardo shared what appears to be a counterintuitive weighting of Honors and Advanced Placement courses recently came to his attention. Dr. Bennardo explained the current formula to the Board as follows:

Honors Classes:

100% less the unweighted class grade x .4 + class grade = Final Grade

AP Classes:

100% less the unweighted class grade x .7 + class grade = Final Grade

The industry standard for honors and AP classes is between 1.07 and 1.5 for the final grade. For instance, an 86% in Honors English would be 86×1.08 for a final grade of 92.88%. The issue is that it is counterintuitive in that the formula tends to reward lower grades with more points. For example, an 86% in Honors English would convert to 91.6%, an increase of 5.6 points. However, a 96% in Honors English converts to 97.6%, an increase of only 1.6 points. Dr. Bennardo reported that our students graduate with lower weighted averages than neighboring school districts. The solution to this issue was offered as follows:

Honors Classes:

An unweighted average x 1.085 = Final Grade

AP Classes:

An unweighted average x 1.11 – Final Grade

Examples:

An 80% in AP English converts to a 88.8%

A 90% in AP English converts to a 99.9%

Dr. Bennardo reported that the current formula had been used for quite some time, in fact, it was once thought to be Board Policy, which it was not. Dr. Bennardo stated that it was a complicated discussion, and even with a solution, the new system would need to be phased in. Mr. Kaden asked if it were possible for Infinite Campus to be converted to a spreadsheet? Dr. Bloom responded it could be completed in the Infinite Campus “sandbox.” Dr. Bennardo concluded the discussion and stated that a recommendation will be brought forth to the Board for approval shortly.

Committee Updates:

Mr. Ciappetta reported on the Facilities Committee meeting from November 17th. He stated that there was an issue that was complicated, and one that does not have a direct recommendation from the Facilities Committee. Continuing, Mr. Ciappetta stated that the baseball field had been an ongoing issue, specifically with the infield, where they had major difficulties with dirt and grass. Mr. Ciappetta shared with the Board that there were four possible avenues that could be pursued, all of them expensive, and he provided the following explanation:

November 30, 2016

1. Do nothing at this time; the year-to-year patch job, a band-aid more or less, basically maintaining what has been done in the past, would cost \$20,000/year;
2. Work with dirt, although we do not have a sprinkler that could assist with this. Cost: \$110,000 to \$120,000;
3. Work with clay. Cost: \$165,000 to \$175,000.
4. Turf the infield with a cost of \$265,000 to \$325,000.

Mr. Ciappetta shared that the turf field is quite a bit of money for only one high school team to utilize. The girls' softball team could use it, however, that would require the purchase of a moveable mound with a cost of \$50,000, increasing the turf cost to \$340,000 to \$360,000. Mr. Ciappetta solicited comments from Board members.

Mrs. Brieff stated that she had opposed the current turf football field for environmental reasons. Mr. Kaden asked if cork was explored rather than rubber. Mrs. Brieff agreed that she would feel more comfortable using a different material than rubber. She also commented that it was quite a bit of money and should be researched thoroughly.

Mr. Ciappetta reminded the Board that one million dollars had been put into the budget for facilities projects. Mr. Kaden communicated that the \$20,000/year approach seemed reasonable; ten years of our current maintenance would equate to \$200,000. Discussion ensued regarding the turf field; the turf football field has been successful and the concept of a turf baseball field used by outside teams could be explored. Questions arose as to what St. Anthony's did with their baseball field. Dr. Wright responded that they have a turf field with a permanent dirt mound. Farmingdale College has a clay mound. Mr. Ciappetta asked if the Board was interested in pursuing improvements with the baseball field. Mr. Kaden stated that the pros and cons must be examined closely. Mrs. DeGaetano commented that meeting with Mr. Saverio Belfiore of H2M was needed. Mr. Kaden would like to see a cost analysis spread over the next 15 years completed. Mrs. Brieff asked if alternative fills could be considered, such as cork or coconut husks. Discussion ensued regarding dirt vs. clay, and the maintenance thereof. Mr. Ciappetta shared that the next Facilities Committee meeting was in January, and the architect could be invited to a Board meeting. Again Mr. Kaden communicated that he wanted to see the cost of ownership for each proposal, not just the initial cost.

**Comments from
Board Members
and Staff:**

None provided.

**Voice of the
Residents:**

Mrs. Laraki addressed the Board and thanked them for hearing the proposal earlier in the evening, and for allowing the students to speak at the beginning of the meeting so they could go home and be put to bed at a reasonable hour.

Mrs. Laraki communicated to the Board that she was aware that religious observances were allowable as excused absences, however, her proposal was

November 30, 2016

not about being excused. Additionally, in response to the earlier statement regarding Regents testing scheduled on a Muslim holiday, she claimed that the New York State Education Department cites that a bonafide provision could be made for not having exams administered when schools are closed. Mr. Kaden responded to Mrs. Laraki, in a respectful yet informative manner, that the State Education Department also makes a bonafide effort to pay for education.

Mrs. Laraki then shared her experience while growing up in Morocco where there was a diverse religious community with a mosque, synagogue and church all on the same street and her close relationships with neighbors of other faiths. She reiterated that the proposal was about the children. Mr. Kaden explained that if BOCES were to approve the proposal, she would have a much easier task. School cannot begin before Labor Day, as was suggested by Mrs. Laraki, as school aid was not provided before Labor Day. Mrs. Laraki challenged the concept of our District having 182 instructional days vs. the State's allowable 180 days. It was shared with Mrs. Laraki that this was a contractual matter.

Adjournment:

Motion by Mr. Nitkewicz, seconded by Mrs. DeGaetano, be it Resolved that the meeting be adjourned.
Motion carried unanimously.

The meeting was declared adjourned at 9:55 p.m.
